CAREER OBJECTIVE

Microbiology and Cell Science undergraduate at the University of Florida seeking an opportunity to strengthen practical skills, enhance laboratory knowledge and scientific reasoning, and contribute to healthcare or research-focused environments.

EXPERIENCE

UF Health Leesburg — Lab Assistant/ Phlebotomist

2025

- Collected and processed blood specimens with accuracy while ensuring patient comfort and safety.
- Verified patient information, maintained detailed records, and followed strict compliance protocols.
- Supported physicians, nurses, and lab staff by preparing samples for diagnostic testing.

Burn Boot Camp — Child Watch

2023-2024

- Supervised and ensured the safety of children in a fast-paced environment.
- Provided a calm and reassuring presence, effectively managing anxious or upset children.
- Maintained cleanliness and adhered to health and safety protocols.
- Communicated effectively with parents, demonstrating patience and strong interpersonal skills.

VOLUNTEER

Advent Health Hospital — Patient Care & Nurse Assistant

2024 - Ongoing

- Assisted patients and visitors with directions and basic needs, providing a compassionate and supportive environment.
- Assisted nurses with non-clinical tasks, ensuring efficient patient care and workflow.
